The ARM User Executive Committee: A Voice For the User Community
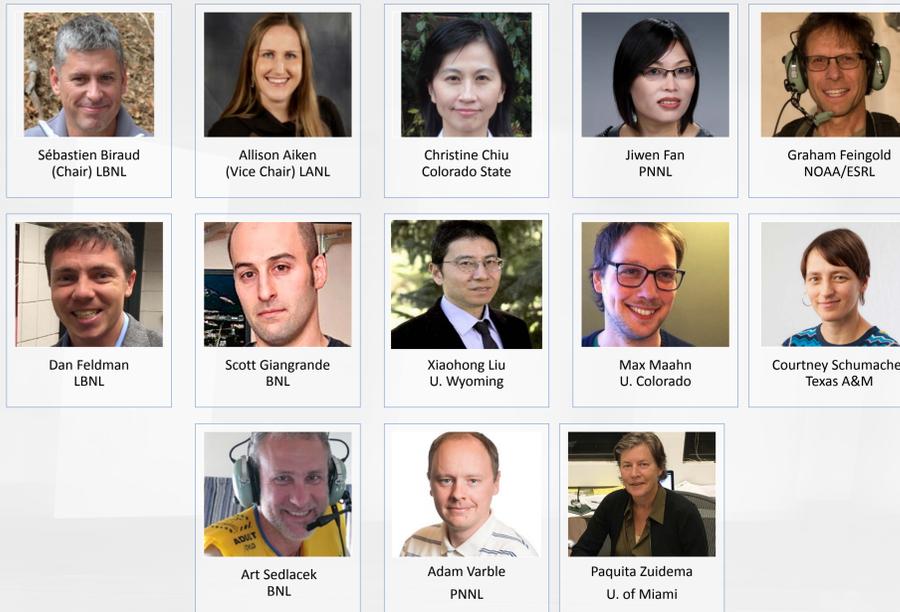

The User Executive Committee (UEC) is chartered to serve as a liaison between ARM and the user community and to provide feedback to ARM. The UEC is an independent body, whose members are elected for a 4-year term, charged with providing objective, timely advice and recommendations to the leadership of the ARM Program with respect to the user experience.

Who are the UEC members?

UEC members are elected representatives from the ARM user community. We are data users with a wide range of backgrounds and experiences.

Sébastien Biraud (Chair) LBNL

Allison Aiken (Vice Chair) LANL

Christine Chiu Colorado State

Jiwen Fan PNNL

Graham Feingold NOAA/ESRL

Dan Feldman LBNL

Scott Giangrande BNL

Xiaohong Liu U. Wyoming

Max Maahn U. Colorado

Courtney Schumacher Texas A&M

Art Sedlacek BNL

Adam Varble PNNL

Paquita Zuidema U. of Miami

Topics Addressed by the UEC in 2018/2019

Outreach across the user community
- Leverage attendance at science and programmatic meetings to reach a larger user community
- Regular column in ARM publications, including introductions to UEC
- Focus on early career scientists, including networking session at this meeting

Improvement of the Data Discovery
- Provided feedback, suggestions and comments on how to improve the data discovery.

Development of ARM tutorials
- Work with ARM staff to define topics for new series of ARM tutorials
- Review drafts before release

Feedback for Biological and Environmental Research Advisory Committee (BERAC)
- BERAC Subcommittee on User Facilities examined how user facilities contribute to Grand Challenges
- UEC prepared a report back to the Subcommittee

Uncertainty Quantification
- How to best communicate UQ to users

Input and feedback on the ARM/ASR PI Meeting

Add Your Comments or Questions Here!
Simply write your comment or questions on a Post-It note and attach it to the poster.

We welcome the opportunity to discuss your experiences with ARM!
